EU25	MED						81	-

Fixed dunes with coastal crucianell (*Crucianella maritima*) and sea daffodil (*Pancratium maritimum*) on the coasts of the western and central Mediterranean. The conservation status is 'unfavourable inadequate', which is connected to the 'unfavourable inadequate' status of Range and Area of habitat. 'Structure and functions' and 'future prospects' are 'unknown but not favourable'. Better information required, especially from Spain.
