

Habitat code: **2260**  
 Habitat name: **Cisto-Lavenduletalia dune sclerophyllous scrubs**

Habitat group: **dunes habitats**  
 Regions: **ATL CON MED**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

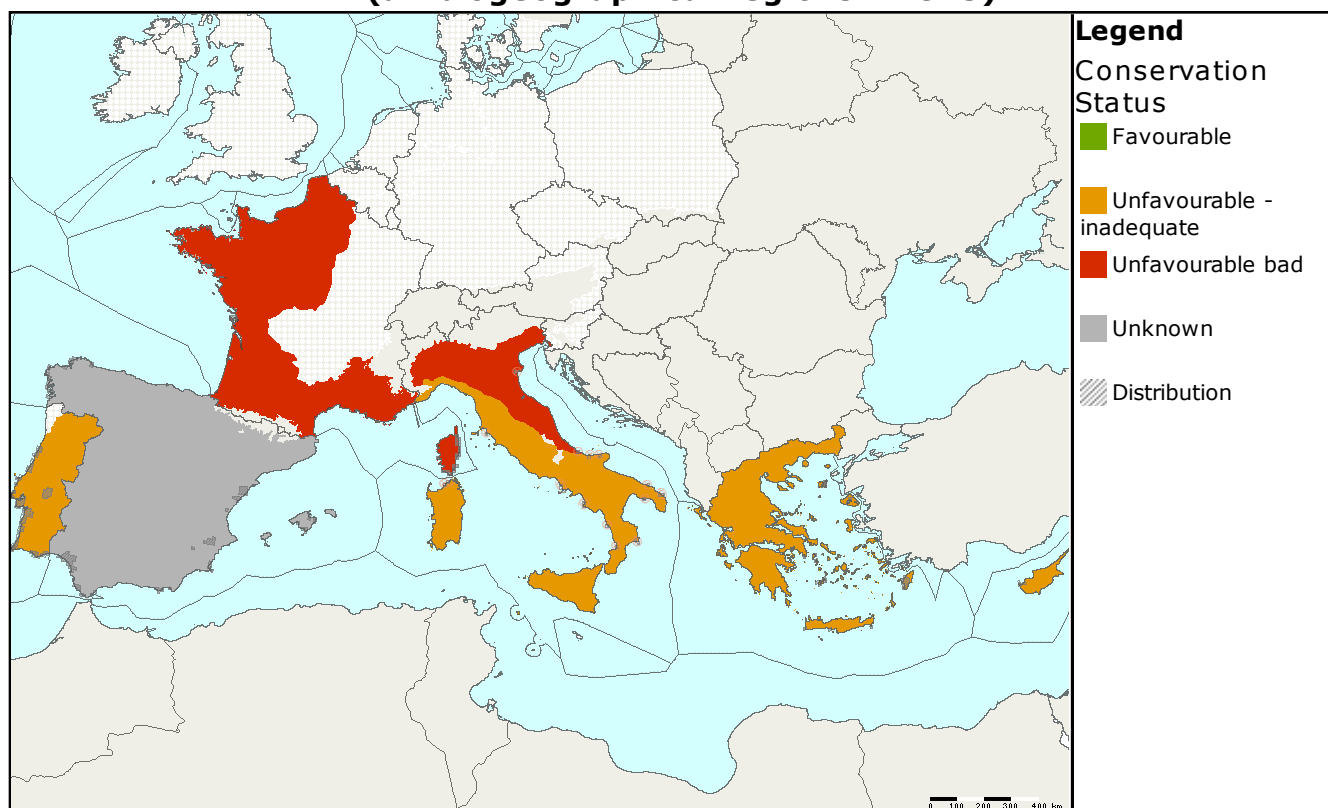

MS	Biogeographic Region	Conservation status assessment					Km <sup>2</sup>	Trend in area
		Range	Area	Structure & function	Future prospects	Overall		
EU25	ATL						>0.06	
EU25	CON						1	=
EU25	MED						>430	-

Sclerophyllous scrubs have hard, evergreen leaves and are typical of the Mediterranean and areas having a similar climate. Within the European Union, this habitat is mostly found in the Mediterranean basin but is also found along the Atlantic coasts of France, Portugal and Spain.

Assessed as 'unknown but not favourable' for the Mediterranean region as Spain, which hosts the major proportion of the habitat's area and distribution, reported all parameters as 'unknown'. However, in most countries the conservation status was assessed as 'unfavourable-inadequate' and 'unfavourable-bad' in France. It is also 'unfavourable-bad' in the Continental region (only Italy). Assessed as 'unknown' for the Atlantic region with all parameters as 'unknown' although France reported 'unfavourable-bad'. The pressures and threats reported are mostly related to human impacts, in many cases leading to loss of habitat as well as unfavourable 'structure & function'.

Better information is required, particularly from Spain.

### Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Biogeographic Region	Conservation status assessment					Km <sup>2</sup>	Trend in area	Data quality
		Range	Area	Structure & function	Future prospects	Overall			
ES	ATL						N/A	=	
FR	ATL						0.06	-	2
IT	CON						1	=	2
CY	MED						0.005	X	2
EL	MED						3.2	X	1
ES	MED						384.14	-	2
FR	MED						15	-	2
IT	MED						28	=	2
PT	MED						N/A	-	

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
