

Habitat code: **3280**
 Habitat name: **Constantly flowing Mediterranean rivers with Paspalo-Agrostidion species and hanging curtains of Salix and Populus alba**

Habitat group: **freshwater habitats**
 Regions: **ALP CON MED**

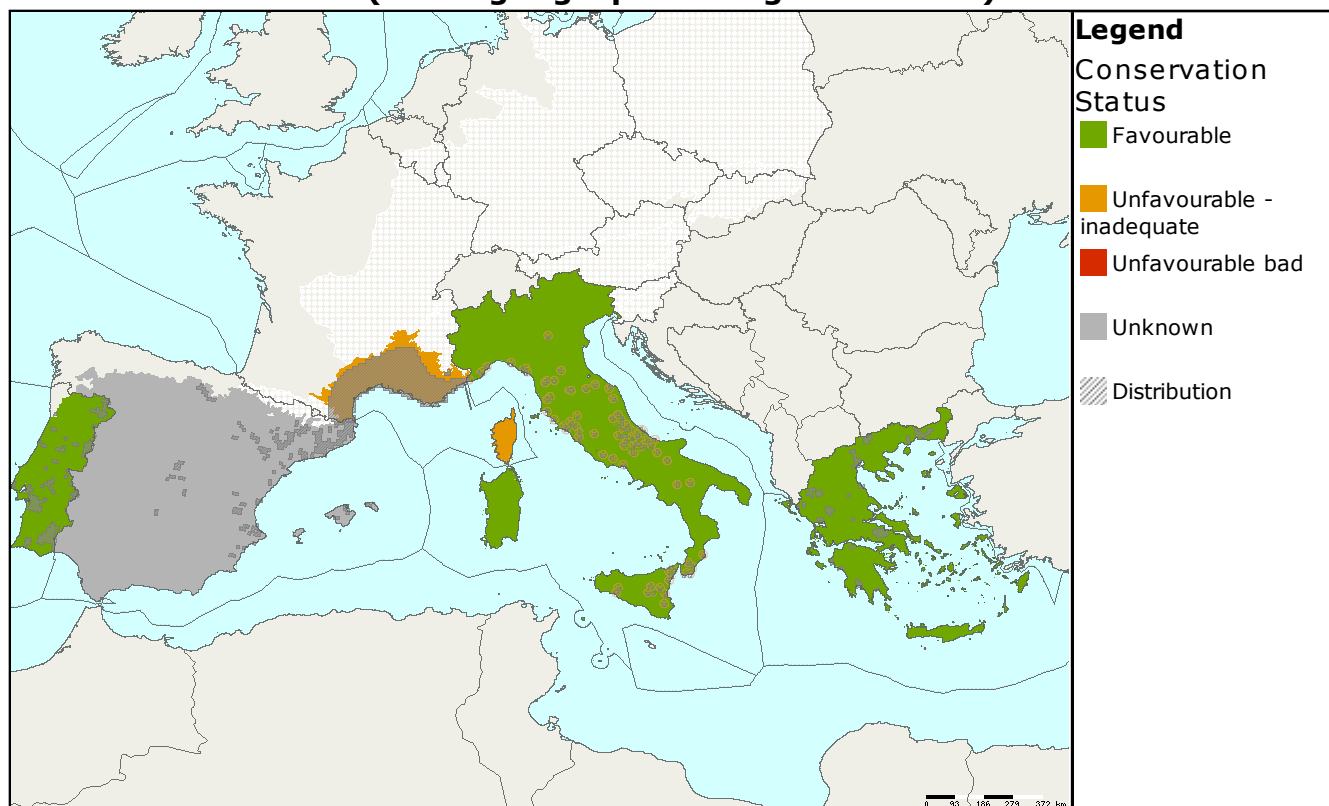

Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Biogeographic Region	Conservation status assessment					Km ²	Trend in area
		Range	Area	Structure & function	Future prospects	Overall		
EU25	ALP	Green	Green	Grey	Green	Green	16	=
EU25	CON	Green	Green	Grey	Green	Green	7	=
EU25	MED	Green	Orange	Grey	Grey	Orange	>258	

This is a habitat typical of rivers in the Mediterranean region which continue to flow all year, rivers which only flow part of the year are included in habitat type 3290. The habitat is also present in adjacent regions in Italy. Assessed as 'unfavourable-inadequate' as a result of the conservation status in France where only 'range' is 'favourable'. This assessment was based on weighting by area estimated from a distribution map and it is possible that the area in France has been overestimated, elsewhere in the region the habitat has been assessed as 'favourable' or 'unknown'. In the Alpine and Continental regions (both only Italy) the habitat has been assessed as 'favourable'. Better and more complete information is required

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Biogeographic Region	Conservation status assessment					Km ²	Trend in area	Data quality
		Range	Area	Structure & function	Future prospects	Overall			
IT	ALP						16	=	2
IT	CON						7	=	2
EL	MED						44.3	=	1
ES	MED						119	X	
FR	MED						20	-	2
IT	MED						75	=	2
PT	MED						N/A	+	

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
