

Species name: **Barbus graecus**  
Annex: **V**

Species group: **Fish**  
Regions: **MED**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	MED							-

MED: The assessment made by Greece is 'favourable', but using the information from the IUCN 2007 Red-List (<http://www.iucnredlist.org/search/details.php/60805/summ>) the conservation status should be 'unfavourable-inadequate'. See audit trail for additional information.

**Assessments of conservation status as reported by Member states  
(all biogeographical regions - EU25)**

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
EL	MED						4 - 21 area	=	2

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
