

Species name: **Austropotamobius torrentium**  
 Annex: **II\*, V**

Species group: **Invertebrates**  
 Regions: **ALP CON MED PAN**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

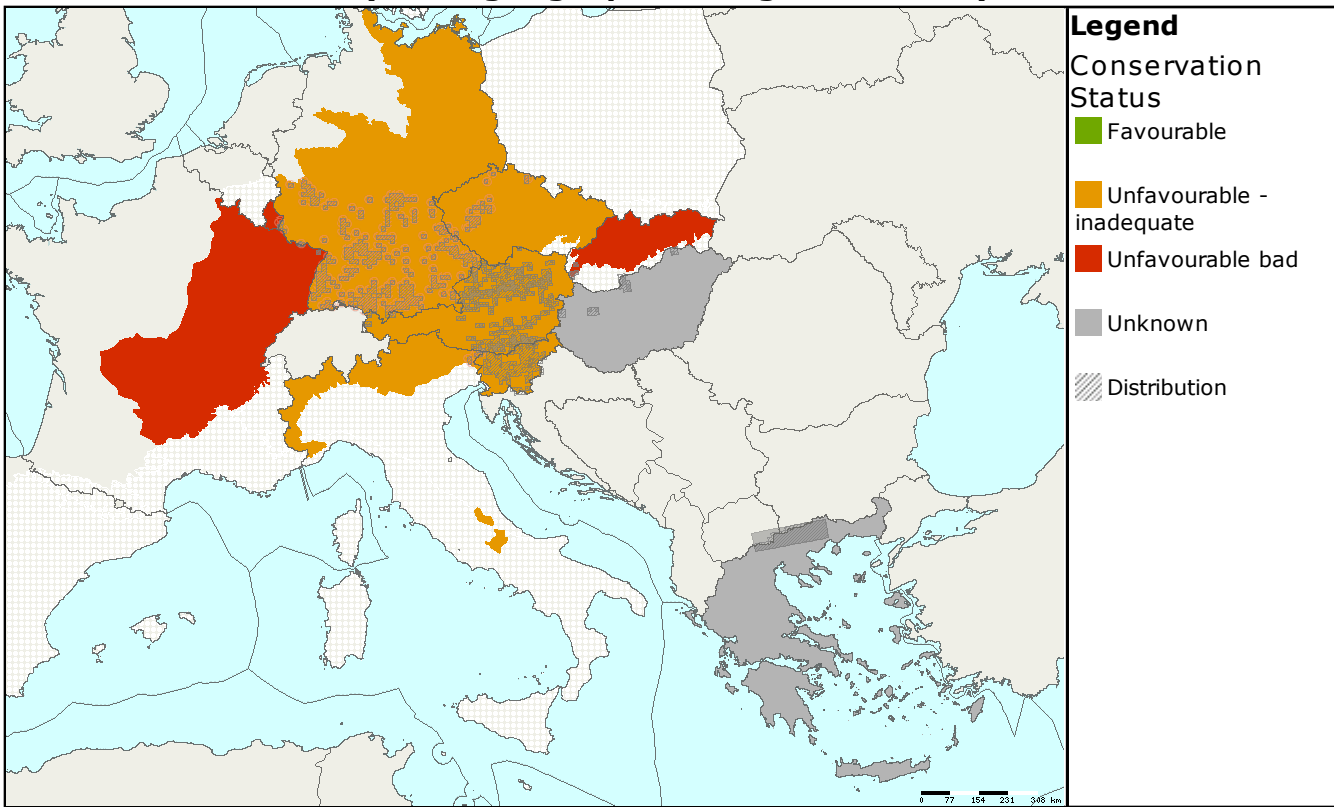

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	ALP						320 grids	
EU25	CON						593 grids	
EU25	MED							X
EU25	PAN						10 - 15 loc.	X

The stone crayfish is one of four known European freshwater crayfishes distributed mainly in central Europe.

Overall assessment of this species is 'unfavourable-inadequate' for Alpine and Continental regions. However, its conservation status in Slovakia, France and Luxemburg is 'unfavourable-bad'. For Mediterranean and Pannonian regions it was reported only by Greece and Hungary. Both of these reports are 'unknown' making the regional assessments also 'unknown'. According to IUCN it is assessed as 'vulnerable'.

## Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)
