

Species name: **Fabriciana elisa**  
Annex: **IV**

Species group: **Invertebrates**  
Regions: **MED**

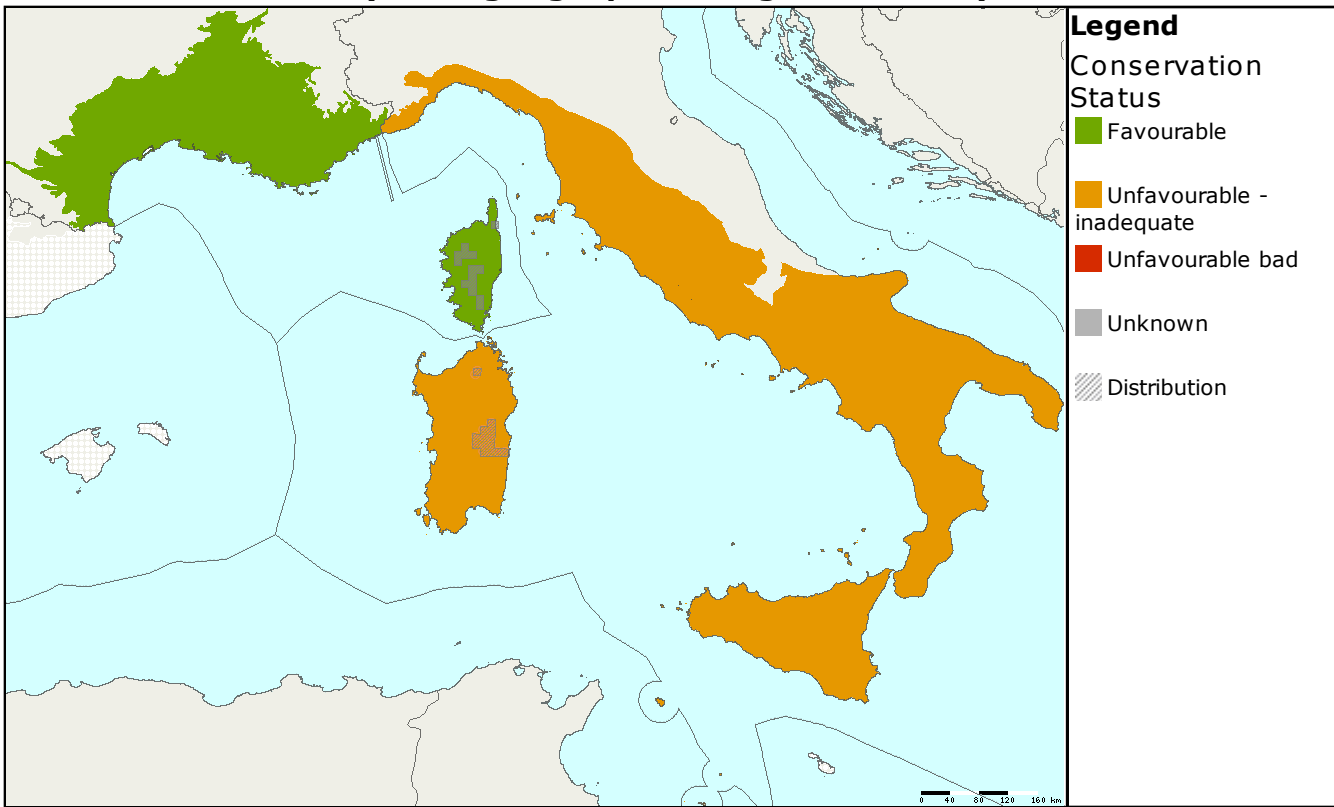

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	MED						28 grids	

The Corsican Fritillary (*Fabriciana elisa*) is a butterfly species endemic to Corsica and Sardinia. The species is recorded from the Mediterranean biogeographical region from France and Italy. Its overall regional assessment is 'unfavourable-inadequate'. However, the French report was 'favourable' both in future prospects and overall.

## Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
FR	MED						N/A indiv.	X	
IT	MED						10 - 25 loc.	-	2

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at
