

Species name: **Leucorrhinia albifrons**  
 Annex: **IV**

Species group: **Invertebrates**  
 Regions: **ALP ATL BOR CON**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

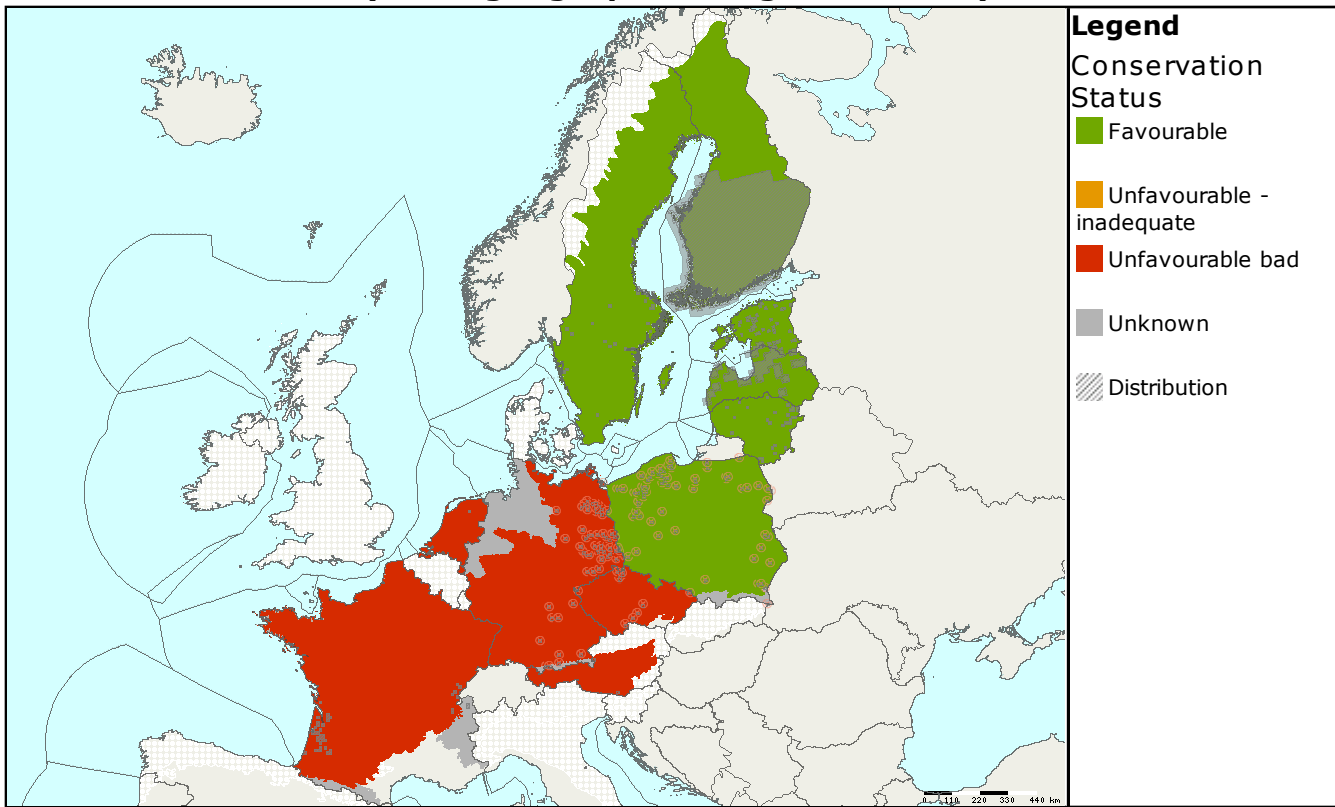

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	ALP						6 grids	
EU25	BOR						2430 grids	+
EU25	CON						173 grids	
EU25	ATL						35 grids	

*Leucorrhinia albifrons* is dragonfly species present mostly in central Europe, Baltic and Scandinavia. It lives near shallow waters with floating vegetation, not in too nutrient-rich waters.

Conservation status is better on the eastern part of its range with 'favourable' assessment for Boreal region (favourable in all national reports as well). Towards central Europe situation is quite different with 'unfavourable-bad' assessments for the rest of its range (Alpine, Atlantic and Continental regions). According to IUCN species is common and with stable populations ('least concern').

## Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
AT	ALP						50 - 50 indiv.	X	3
FR	ALP						N/A x	-	3
DE	ALP						2 - (2) loc.	X	3
PL	ALP						1 - 1 loc.	X	3
DE	ATL						1 - (1) loc.	X	3
FR	ATL						N/A x	=	2
NL	ATL						5 - 50 indiv.	X	1
EE	BOR						48 - 48 area	=	2
FI	BOR						300 - 1000 grids	=	2
LT	BOR						30 - 45 loc.	+	2
LV	BOR						34 - 34 loc.	=	2
SE	BOR						500 - 2000 loc.	=	3
CZ	CON						13 - 13 loc.	+	2
DE	CON						79 - (79) loc.	-	2
FR	CON						N/A x	=	1
PL	CON						1300 - 1800 loc.	=	2
SE	CON						10 - 50 loc.	=	3

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
