

Species name: **Ovis gmelini musimon**
Annex: **II, IV**

Species group: **Mammals**
Regions: **MED**

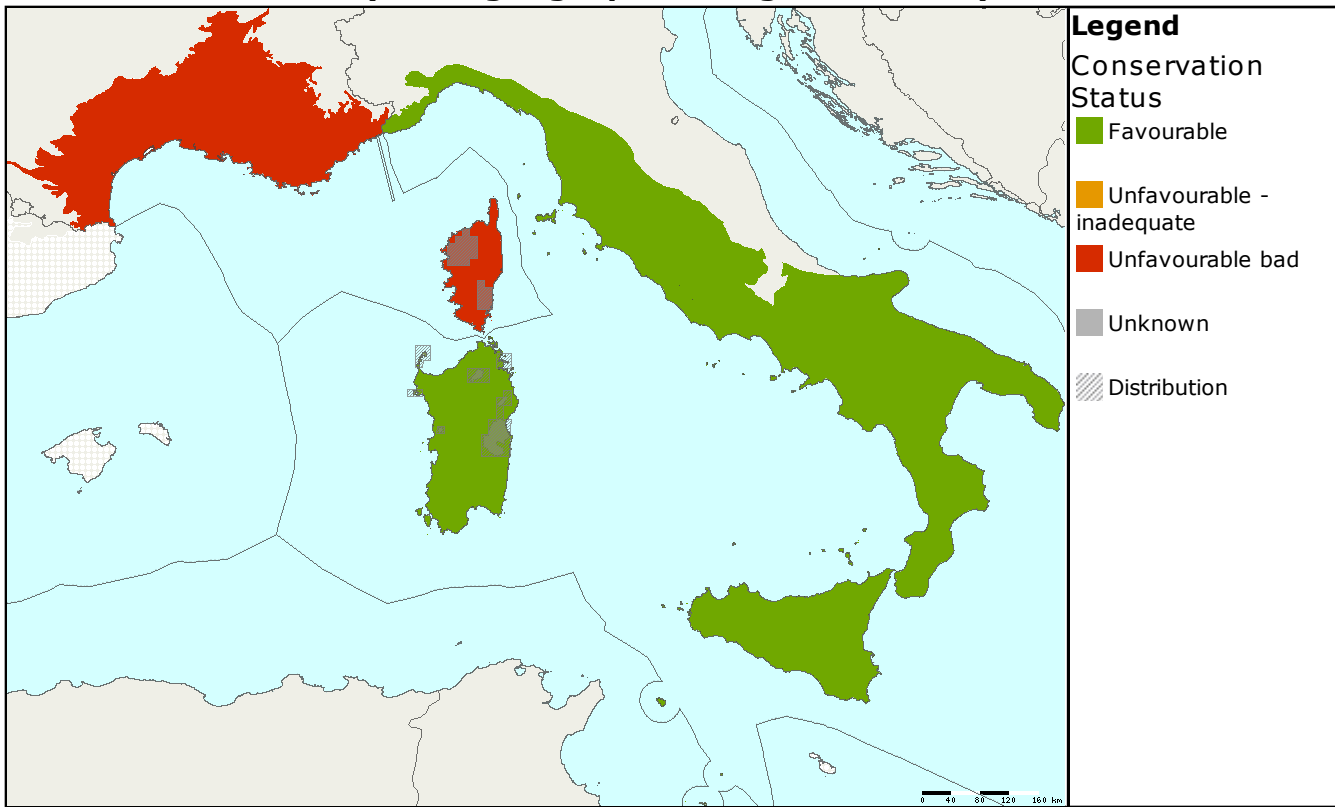

Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	MED						6900 indiv.	+

The European mouflon has natural populations in Corsica (France) and Sardinia (Italy). The species is only reported by France and Italy. Its status of conservation is assessed as "favourable" despite the French negative report.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
FR	MED						900 - 900 indiv.	+	3
IT	MED						6000 - 6000 indiv.	+	2

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at
