Habitats Directive Article 17 Reporting

Species name: Cirsium brachycephalum Species group: Plants

Annex: II, IV Regions: PAN

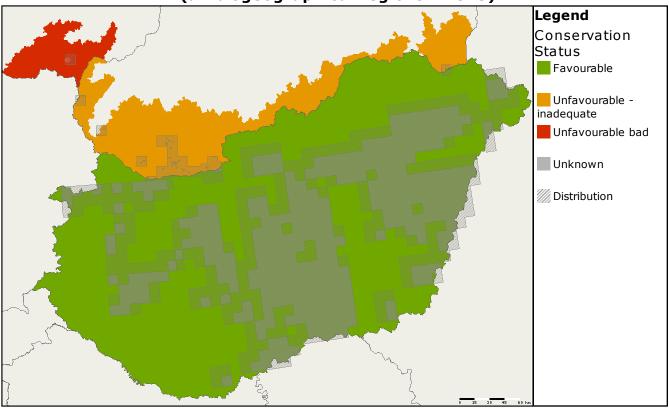

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | | Conservatio | Donulation | Donulation | | | |
|------|--------|-------|-------------|------------|---------------------|--|-------------|---------------------|
| | | Range | Population | Habitat | Future prospects | | size & unit | Population Trend |
| EU25 | PAN | | | | | | 521 grids | |

Cirsium brachycephalum is a perennial flowering plant occurring in Pannonian biogeographic region. Mostly in northern and western Hungary, plus adjacent parts of Slovakia and Czech Republic. It is assessed as 'favourable' overall due to Hungarian report (favourable in all parameters). It is reported as 'unfavourable-bad' in Czech Republic and 'unfavourable-inadequate' in Slovakia which are at the margins of the distribution and only host a very small proportion of the total EU population.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | | Donulation | D2: |
|----|--------|--------------------------------|------------|---------|---------------------|---------|-----------------------------|---------------------|-----|
| | | Range | Population | Habitat | Future prospects | Overall | Size&unit | Population trend | qua |
| CZ | PAN | | | | | | 1000 - 1000 indiv. | _ | 2 |
| ΗU | PAN | | | | | | 30000000 - 100000000 indiv. | X | 3 |
| SK | PAN | | | | | | 35 - 35 loc. | = | 1 |

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at http://biodiversity.eionet.europa.eu/article17
