

Species name: **Diplotaxis siettiana**  
Annex: **II\*, IV**

Species group: **Plants**  
Regions: **MED**

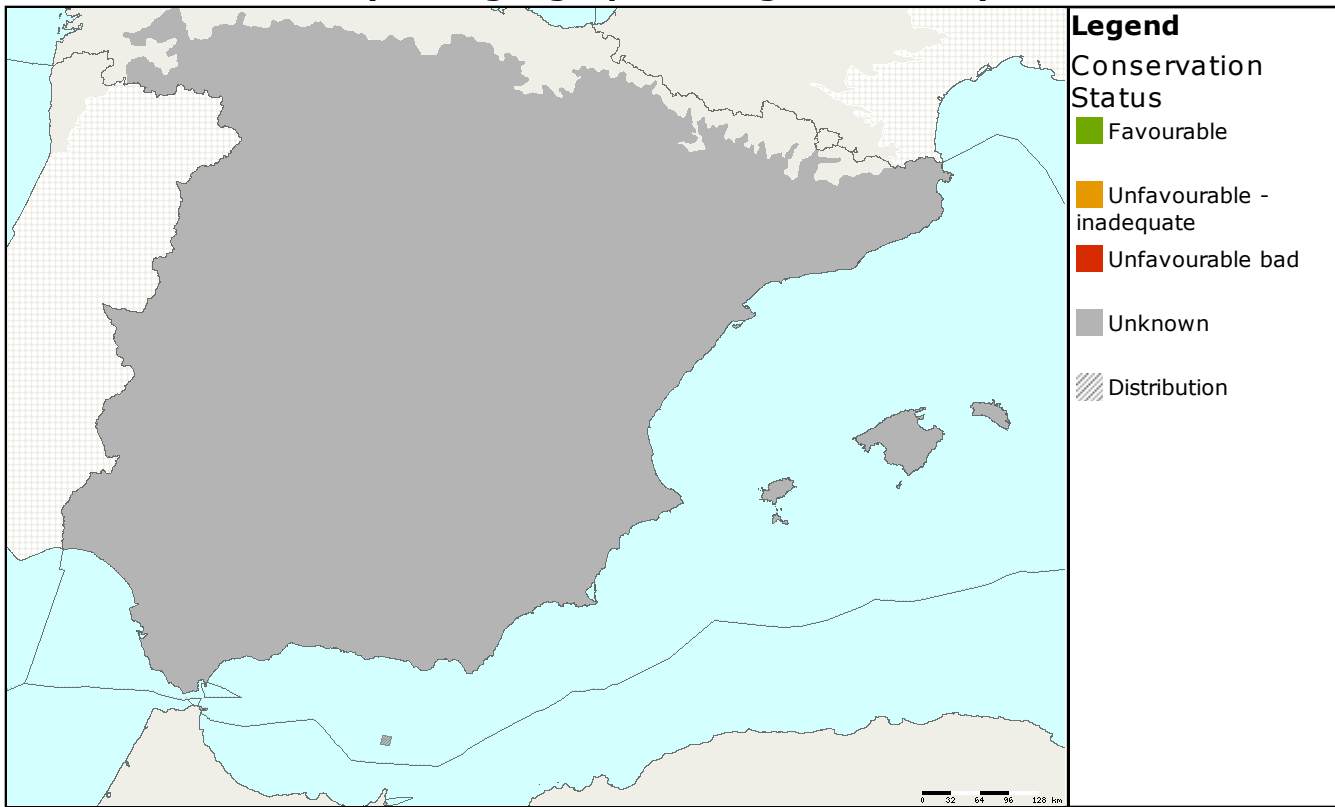

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS   | Region | Conservation status assessment |            |         |                  |         | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
|      |        | Range                          | Population | Habitat | Future prospects | Overall |                        |                  |
| EU25 | MED    |                                |            |         |                  |         | 0 area                 | X                |

MED: Endemic to the island of Alboran, ES (no map provided) Was extinct in the wild but had been reintroduced in 1999 Little information reported by ES but likely to be unfavourable-bad, CR by IUCN & in ES RDB Included on IUCN list of 50 most threatened plant spp of Mediterranean islands See [http://www.iucn.org/THEMES/SSC/our\\_work/plants/Top50/English/Diplotaxis\\_siettiana\\_EN.htm](http://www.iucn.org/THEMES/SSC/our_work/plants/Top50/English/Diplotaxis_siettiana_EN.htm) [http://www.mma.es/portal/secciones/biodiversidad/inventarios/inb/flora\\_vascular/pdf/515.pdf](http://www.mma.es/portal/secciones/biodiversidad/inventarios/inb/flora_vascular/pdf/515.pdf)

## Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment |            |         |                  |         | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|-----------|------------------|--------------|
|    |        | Range                          | Population | Habitat | Future prospects | Overall |           |                  |              |
| ES | MED    |                                |            |         |                  |         | N/A area  | X                | 3            |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
