Assessments of conservation status at the European level (all biogeographical regions - EU25)

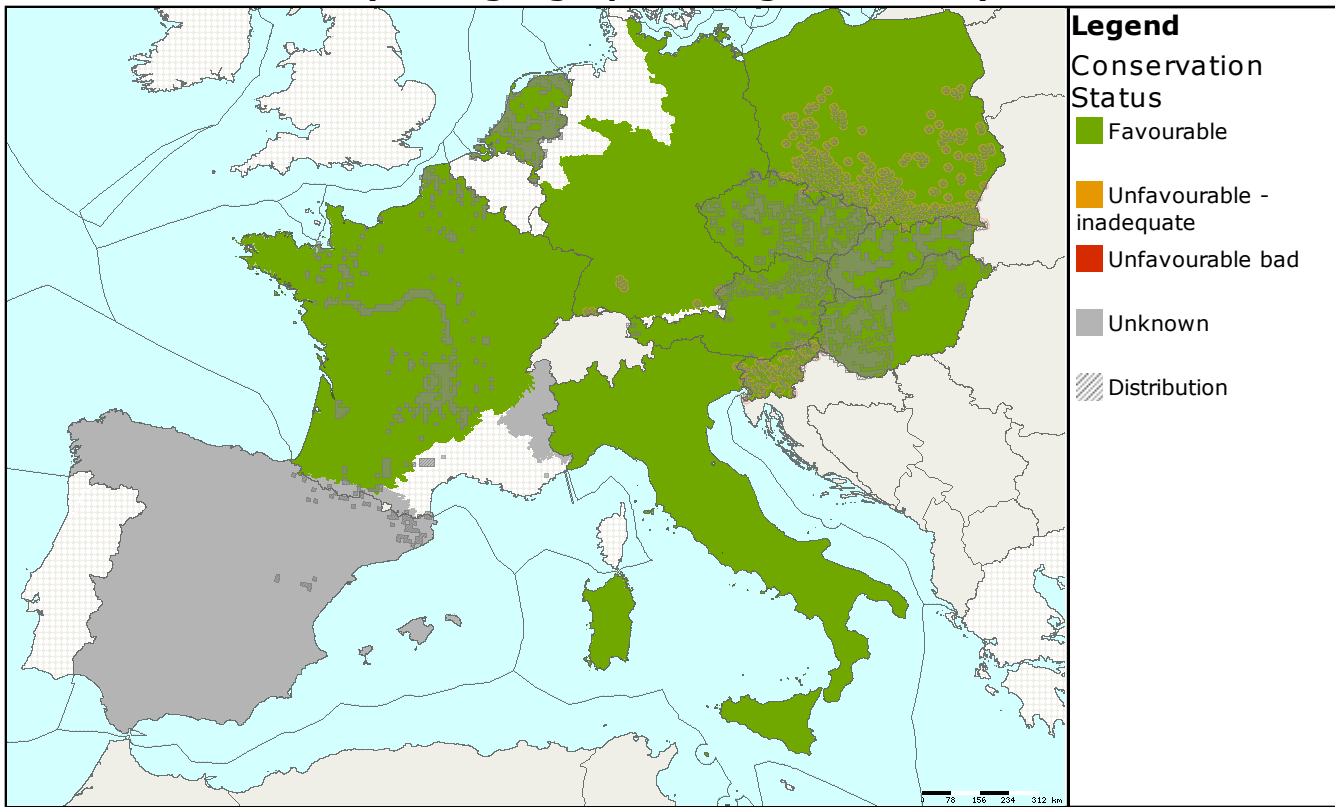

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	ALP						> 425 grids	
EU25	MED						> 46 grids	
EU25	PAN						579 grids	
EU25	ATL						431 grids	
EU25	CON						> 1069 grids	

The common snowdrop is a plant which is widely spread in Europe.

In all geographical regions (Alpine, Atlantic, Continental, Mediterranean and Pannonian) the status clearly is 'favourable'. However, in Hungary the population trend is negative and in Spain and France its status is largely 'unknown'.
