

Species name: **Limonium insulare**  
Annex: **II\*, IV**

Species group: **Plants**  
Regions: **MED**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS   | Region | Conservation status assessment |            |         |                  |         | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
|      |        | Range                          | Population | Habitat | Future prospects | Overall |                        |                  |
| EU25 | MED    |                                |            |         |                  |         | 7 loc.                 | =                |

MED: Endemic to Sardinia, Italy Habitat assessed as 'unknown' and noted as 1420 Mediterranean and thermo-Atlantic halophilous scrubs (*Sarcocornetea fruticosi*) also assessed as 'unknown' by Italy in this region Information on habitat required

**Assessments of conservation status as reported by Member states  
(all biogeographical regions - EU25)**

| MS | Region | Conservation status assessment |            |         |                  |         | Size&unit  | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|------------|------------------|--------------|
|    |        | Range                          | Population | Habitat | Future prospects | Overall |            |                  |              |
| IT | MED    |                                |            |         |                  |         | 7 - 7 loc. | =                | 2            |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
